## Zeeland 428\*\*

PHOTO MANUAL

## DK ZEELAND

"WINSTON CHURCHILL", senere kaldet "ZEELAND", blev bygget under Anden Verdenskrig og udstyret med en dampmaskine. Det var faktisk den sidste dampdrevne slæbebåd til kystbrug bygget for det hollandske firma Goedkoop i Amsterdam. Fartøjet blev senere solgt til det hollandske firma Willem Muller i Terneuzen i 1964, hvor hun blev udstyret med en dieselmotor og omdøbt til "ZEELAND Hun blev brudt op i". 1997 i Dordrecht, Holland, siger en af skibets kaptajner, Henk de Winde, "Hun var en svær dame at omgås, men efter 25 års lykkeligt ægteskab ved jeg, at hun var meget speciel, og jeg er stadig ikke sikker., hvilken af os var bedst."

## GB ZEELAND

The "WINSTON CHURCHILL", later called the "ZEELAND" was built during the Second World War and equipped with a steam engine. It was, in fact, the last steam-driven tug for coastal use built for the Dutch company Goedkoop in Amsterdam. The vessel was later sold to the Dutch company Willem Muller in Terneuzen in 1964, where she was equipped with a diesel engine and renamed the "ZEELAND". She was broken up in 1997 in Dordrecht, Holland. Says one of the ship's captains, Henk de Winde, "She was a difficult lady to get along with, but after 25 years of happy marriage, I know that she was very special, and I am still not sure, which one of us was best."

## D ZEELAND

"WINSTON CHURCHILL", später "ZEELAND", wurde während des zweiten Weltkriegs gebaut und mit einer Dampfmaschine ausgerüstet. Das für Küstengewässer bestimmte Schiff war der letzte Dampfschlepper, der bei der niederländischen Firma Goedkoop in Amsterdam gebaut wurde. Das Schiff wurde später an die niederländische Firma Willem Muller in Terneuzen verkauft, erhielt einen Dieselmotor, wurde 1964 in "ZEELAND" umgetauft und 1997 in Dordrecht, Holland, abgewrackt. Einer ihrer Kapitäne, Henk de Winde, sagt: "Sie war eine schwierige Dame, aber nach 25 jähriger, glücklicher Ehe weiß ich, daß sie etwas Besonderes war, und ich weiß noch immer nicht, wer am besten war."

## F ZEELAND

Le « WINSTON CHURCHILL », plus tard appelé « ZEELAND », a été construit pendant la Seconde Guerre mondiale et équipé d'un moteur à vapeur. Il s'agissait en fait du dernier remorqueur côtier à vapeur construit pour la société néerlandaise Goedkoop à Amsterdam. Le navire a ensuite été vendu à la société néerlandaise Willem Muller à Terneuzen en 1964, où il a été équipé d'un moteur diesel et rebaptisé « ZEELAND ». Il a été démantelé en 1997 à Dordrecht, aux Pays-Bas. L'un des capitaines du navire, Henk de Winde, a déclaré : « C'était une femme difficile à vivre, mais après 25 ans de mariage heureux, je sais qu'elle était très spéciale, et je ne sais toujours pas lequel d'entre nous était le meilleur. »

## NL ZEELAND

Het schip werd tijdens de laatste wereldoorlog als stoomsleepboot gebouwd voor Rederij Goedkoop in Amsterdam en voer onder de naam "Winston Churchill" in de Nederlandse kustwateren. In 1964 werd het schip verkocht aan Rederij Willem Muller in Terneuzen, omgebouwd naar diesel aandrijving en omgedoopt tot "Zeeland". In 1997 werd het schip in Dordrecht gesloopt. Eén van haar kapiteins, Henk de Winde, zegt: "Ze was een lastige dame in de omgang, speciaal bij zijwind, maar ze had ook haar goede kanten".

## E ZEELAND

El "WINSTON CHURCHILL", más tarde llamado "ZEELAND", fue construido durante la Segunda Guerra Mundial y equipado con un motor de vapor. De hecho, fue el último remolcador a vapor para uso costero construido para la compañía holandesa Goedkoop en Ámsterdam. El barco fue vendido más tarde a la compañía holandesa Willem Muller en Terneuzen en 1964, donde fue equipado con un motor diésel y rebautizado como "ZEELAND". Fue desguazado en 1997 en Dordrecht, Holanda. Uno de los capitanes del barco, Henk de Winde, dice: "Era una mujer con la que era difícil llevarse bien, pero después de 25 años de feliz matrimonio, sé que era muy especial y todavía no estoy seguro de cuál de los dos era el mejor".

## I ZEELAND

Il "WINSTON CHURCHILL", in seguito chiamato "ZEELAND", fu costruito durante la seconda guerra mondiale e dotato di un motore a vapore. Fu, infatti, l'ultimo rimorchiatore a vapore per uso costiero costruito per la compagnia olandese Goedkoop di Amsterdam. La nave fu poi venduta alla compagnia olandese Willem Muller di Terneuzen nel 1964, dove fu dotata di un motore diesel e ribattezzata "ZEELAND". Fu demolita nel 1997 a Dordrecht, in Olanda. Dice uno dei capitani della nave, Henk de Winde, "Era una donna difficile con cui andare d'accordo, ma dopo 25 anni di felice matrimonio, so che era molto speciale, e non sono ancora sicuro di chi di noi due fosse il migliore".

## P ZEELAND

O "WINSTON CHURCHILL", mais tarde denominado "ZEELAND" foi construído durante a Segunda Guerra Mundial e equipado com uma máquina a vapor. Foi, de facto, o último rebocador a vapor para uso costeiro construído para a empresa holandesa Goedkoop em Amsterdão. O navio foi posteriormente vendido à empresa holandesa Willem Muller em Terneuzen em 1964, onde foi equipado com um motor diesel e renomeado "ZEELAND". que ela era muito especial e ainda não tenho a certeza de qual de nós era a melhor."

## PL ZEELAND

„WINSTON CHURCHILL“; później nazwany „ZEELAND“, został zbudowany podczas II wojny światowej i wyposażony w maszynę parową. Był to w rzeczywistości ostatni holownik parowy do użytku przybrzeżnego zbudowany dla holenderskiej firmy Goedkoop w Amsterdamie. Statek został później sprzedany holenderskiej firmie Willem Muller w Terneuzen w 1964 roku, gdzie został wyposażony w silnik diesla i przemianowany na „ZEELAND“. Został złomowany w 1997 roku w Dordrecht w Holandii. Jeden z kapitanów statku, Henk de Winde, mówi: „Była trudną kobietą we wspólnocie, ale po 25 latach szczęśliwego małżeństwa wiem, że była bardzo wyjątkowa i nadal nie jestem pewien, która z nas była najlepsza“.
